BY ACCEPTING THESE TERMS, EITHER BY CLICKING A BOX INDICATING YOUR ACCEPTANCE OR EXECUTING A SAAS SUBSCRIPTION ORDER THAT REFERENCES THESE TERMS, YOU AGREE TO THESE TERMS.

IF YOU ARE ACCEPTING THESE TERMS ON BEHALF OF A COMPANY OR OTHER LEGAL ENTITY, YOU REPRESENT THAT YOU HAVE THE AUTHORITY TO BIND SUCH ENTITY AND ITS AFFILIATES TO THESE TERMS AND CONDITIONS, IN WHICH CASE THE TERMS "YOU" OR "YOUR" SHALL REFER TO SUCH ENTITY AND ITS AFFILIATES. IF YOU DO NOT HAVE SUCH AUTHORITY, OR IF YOU DO NOT AGREE WITH THESE TERMS AND CONDITIONS, YOU MUST NOT ACCEPT THESE TERMS AND MAY NOT USE THE SERVICES.

1. DEFINITIONS

- a) "Affiliate" means any entity that directly or indirectly controls is controlled by or is under common control with You. "Control," for purposes of this definition, means direct or indirect ownership or control of more than 50% of the voting rights of the subject.
- b) "Billing Period" means the period for which you agree to prepay fees under a Subscription Order, which will be the same or shorter than the Subscription Term.
- c) Customer" refers to the entity that is represented by the Subscription Owner. Customer can be a person or an entity.
- d) "Customer Data" refers to the electronic data either uploaded or submitted by integration counterparties, or anyone else on their behalf, to the Service for transmission.
- e) "Endpoint" means a uni- or bi-directional connection to an application or a system. A single Endpoint can be used in multiple integrations.
- f) "Endpoint Type" means a productized set of an application or system-specific functionalities that mirror the technical features and functionalities required for uni- or bi-directional connection with a particular system (E.g., Salesforce).
- g) "Flat-Rate Integration" means an Integration which is set not to consume the Message Quota of the Subscription. Flat-Rate Integration can relay messages in both QA and Production environments. Flat-Rate Integrations are meant for "human-initiated" messaging only. The maximum throughput of a default Flat-Rate integration is one message per second. The throughput can be adjusted if needed. All Subscription Plans do not provide an option to set the Integration to a Flat-Rate.

- h) "Flat-Rate Tenant" means a Tenant which is set not to consume the Message Quota of the Subscription. Flat-Rate Tenants can relay messages in both QA and Production environments. Flat-Rate Tenants are meant for "human-initiated" messaging only. The maximum throughput in a default Flat-Rate Tenant is one message per second. The throughput can be adjusted if needed. All Subscription Plans do not provide an option to use Flat-Rate Tenants.
- i) "Integration" means an arrangement for processing communication between two endpoints through the Service. (Even if source and target endpoints are the same, this is still an Integration.) Integration is active when the first routing rule has been activated between its Endpoints.
- j) "Initiation Date" means the date (and time) when a Subscription or Flat-Rate Tenant is made available to the Customer or a Flat-Rate integration is activated in the Service, either by the user in the User Interface, or by ONEiO Customer Representative, at the request of the User.
- k) "Message" means a message received by the Service (pull or push) AND relayed to another endpoint. If an inbound message is routed to several endpoints, it is considered several messages (e.g., an inbound message routed to three endpoints is considered three messages). A visible synchronous response is NOT a message unless it is routed. A message not routed or handled with a drop or process-only rule is NOT a message. All actions (e.g., attachment handling, value lookups, etc.) within the relaying of a message are considered to be part of that single message.
- l) "Message Quota" means the number of messages that can be used in the Subscription in a Message Quota Period without additional cost. Messages in all environments consume the Message Quota unless relayed through a Flat-Rate Integration or Flat-Rate Tenant, as defined below. The amount of Message Quota may vary depending on the Subscription Plan selected.
- m) "Message Quota Period" is the period that the Message Quota can be used. Message Quota Periods vary with different Subscription Plans. See "Plan Specific Terms" in "ONEiO SaaS Service Description" for details.
- n) "Message Quota Top-Up" means an addition to the Message Quota. Depending on the Subscription Plan selected, the Subscription Owner may or may not control, whether Message Quota Top-Up is applied automatically or not. See "Plan Specific Terms" in "ONEiO SaaS Service Description" for details. When Message Quota Top-Up is applied, the full amount of the Message Quota Top-up Fee is charged, regardless of the amount of the Message Quota Top-Up consumed within the Message Quota Period. One or more Message Quota Top-Ups can be applied within a Message Quota Period. A corresponding amount of Message Quota Top-Up Fees will be charged with the Subscription.
- o) "Message Quota Top-up Fee" means the amount charged once a Message Quota Top-Up is applied. Depending on the Subscription Plan selected, this will be invoiced afterwards or charged automatically.
- p) "Subscription Order" means the ordering document or online order specifying the Services to be provided hereunder, including any addenda and supplements to it, that is issued by You to Us. By issuing a Subscription Order hereunder, an Affiliate agrees to be bound by the terms of the Subscription as if it were an original party hereto.
- q) "Service" refers to ONEiO's cloud-based integration service as described in the Service Description, as it will be amended from time to time.

- r) "Service Description" refers to ONEiO SaaS Service Description published by Us, as it will be amended from time to time.
- s) "Service Provider Endpoint Type" means an endpoint type created for a Service Provider Plan (See Service Description, Plan Specific Terms). It is a set of functionalities that mirror the technical features and functionalities for uni- or bi-directional connection to the Service Provider's system.
- t) "Subscription" means the license to use the Service for a given period in accordance with the terms of the Subscription. The terms of the Subscription are set forth in the relevant Subscription Order, accepted by us, and in this ONEiO SaaS Master Terms.
- u) "Subscription Fee" refers to a recurring fee in accordance with the Subscription Order.
- v) "Subscription Owner" refers to a person appointed to be accountable for acting as the operational administrator of the Subscription.
- w) "Subscription Plan" means the type of Subscription described in the Service Description.
- x) "Subscription Term" commences on the Initiation Date.
- y) "User Interface" or "User Console" means a browser-based tool used to configure and view the subscription's components.
- z) "Tenant" means a separate and isolated object available in a Service Provider Plan. It is used for integrating service providers' end customers. Tenants have individual configuration and user access management. Only Integrations with Service Provider Endpoint Type as source or target are allowed in a Tenant. Tenant is active when it is available in the User Interface.
- aa) "We," "Us," or "Our" means Oneio Cloud Corporation or our Affiliates.
- bb) "You" or "Your" means the Customer or other legal entity for which you accept these Terms, and Affiliates of that company or entity which have executed a Subscription Order.

The Cut-Off Period is when the Service has not been available in the production environment at the public network interface.

Such force majeure events shall include, if not proven otherwise, inter alia, war or insurrection, natural catastrophe, interruptions in general data communication or supply of electricity, import or export embargo.

Strike, lockout, boycott, and other similar industrial action shall also be a force majeure event, if not proven otherwise, when the party concerned is the target of such an action. Except concerning a Free Trial, to the extent that We process any Personal Data contained in the Customer Data, on Your behalf, in the provision of the Service, the terms of the ONEiO Data Processing Agreement, which is hereby incorporated by reference, shall apply and the parties agree to comply with such terms.

- 9.7. **UPDATES AND AMENDMENTS** We are entitled to amend the Service, including the terms of the Subscription, from time to time so long as such amendment applies equally to all of Our subscribers and/or customers or the relevant subset thereof. We shall notify ("Change Notice") You at least 45 days prior to implementation of any change to the Service that is likely to decrease the value of the Service to You. If You object to such change within 30 days from the Change Notice, We shall postpone the implementation of the change to You for up to 120 days from the Change Notice if that is technically and commercially feasible.

No amendment to these Terms, other than by the Change Notice referred to above, shall be effective, unless made by a written instrument properly signed by both parties, which is expressly amending certain provisions of these Terms.

 - 9.10. **WAIVER** No failure or delay by either party in exercising any right under these terms will constitute a waiver of that right.
 - 9.11. **SEVERABILITY** If any provision of these terms is held by a court of competent jurisdiction to be contrary to law, the provision will be deemed null and void, and the remaining provisions of these terms will remain in effect.
 - 9.12. **SUBCONTRACTING** We may at any time subcontract or delegate any or all of Our obligations under the Subscription to a third party. However, We shall remain liable to You for any and all services provided by such third party.

ONEiO uses rule-based message processing. Detailed up-to-date features are defined in ONEiO Help Center.

Queuing

All message processing is asynchronous. Message processing pipelines have inbound processing(receivers), message processing(broker), and outbound processing queues.

Outbound messaging

Supported technologies

- REST/JSON(XML)
- SOAP/XML
- FTP/sFTP/FTPS (XML, JSON, CSV)
- Email

Outbound authentication

Following mechanisms are available for outbound authentication

- HTTP Basic
- OAuth2
- (Mutual) SSL certificate authentication
- SOAP Username token authentication
- Token authentication
- HMAC Authentication

Outbound Attachment handling

ONEiO supports outbound inline attachments and can upload the attachments separately while processing the outbound message.

3. MAINTENANCE AND MONITORING

APPLICATION UPGRADES. “Application Upgrade” is a modification to the Service for repair or enhancement. We shall determine how and when to develop and release Application Upgrades. All repair Upgrades are provided to You at no additional fee during the Subscription Term. We may, at Our sole discretion, provide any new functionality as an enhancement Upgrade or as part of a new optional service for a separate fee.

System monitoring

ONEiO monitors the overall system and its performance 24/7/365. ONEiO Operations Team conducts the monitoring. In case of an issue, ONEiO Operations Team will notify the affected party’s Subscription Owner immediately. The system’s status information is available in ONEiO Help Center’s Community’s Service Status section.

Integration monitoring

ONEiO provides notification information from integration-related events automatically. These events are notified by email to the email addresses set by the Subscription Owner in the User Interface.

4. USER INTERFACE (APP)

ONEiO User Interface is the console where your integrations can be viewed and configured and managed. The Subscription Owner automatically has access to ONEiO User Interface. The Subscription Owner is entitled to create additional users in the User Interface. The amount of additional user accounts is not limited. The user interface consists of the following features. (Detailed and up-to-date list of User Interface features is available in ONEiO Help Center.)

Message Feed

The message feed is a real-time view of the message flow in a customer’s subscription. Customers can monitor the traffic and search for particular messages. The feed consists of

three steps; received message (inbound), message processing (ONEiO), and message(s) sent out (outbound).

Routing Rule view

The Routing rule view represents all routing rules the subscription contains and allows rules to be accessed for viewing and editing.

Endpoint view

The endpoint's main view visualizes all endpoints connected to the subscription in ONEiO. The endpoints are arranged circularly around a center point representing ONEiO. This view is used for up to 16 endpoints and is the default layout. If your subscription has more than 16 endpoints, the view will automatically change to a list view presenting a list of your endpoints.

Subscription settings

Subscription settings contain information about the subscription and its state. The views vary depending on the plan selected.

User settings

User settings contain functionalities to control and view user-specific settings.

5. TECHNICAL SUPPORT

- 1.7. “Post-Termination Period” means the 30 days period following the Termination Date in which Customer can retrieve Customer Data from the Service.
- 1.8. “Processing” has the meaning given to it in the Applicable Data Protection Law and “process”, “processes” and “processed” will be interpreted accordingly.
- 1.9. “Sub-Processor” means a data processor acting on behalf of Us.

2. DATA PROCESSING

- 2.1. **Scope and Roles.** This Addendum applies when We are processing Personal Data that is included in the Customer Data. In this context, We will act as “processor” to the Customer, who may act either as “controller” or “processor” with respect to Personal Data (as each term is defined in the GDPR).
- 2.2. **Details of Data Processing.**

- a) **Subject matter.** The subject matter of the data processing under this Addendum is the Personal Data that is forming part of the Customer Data.
 - b) **Duration.** Data processing under this Addendum continues for the duration of the Agreement and the Post-Termination period. Each piece of Customer Data is processed 30 days only, unless otherwise expressly agreed with the Customer. The Customer can delete all Customer Data at any time in the Service.
 - c) **Nature of processing.** Instant and automatic transmission of messages between two integrated data systems chosen by the Customer. Transmitted messages are stored in the Service for 30 days for message conversation view. Data transmission is carried out automatically in accordance with the configuration provided by the Customer from time to time.
 - d) **Purpose.** The purpose of the data processing is to enable communication between two different data systems.
 - e) **Type of Personal Data.** The Personal Data is comprised of person and system identification data (e.g. name, phone number, email address, office location, login information) included in the Customer Data, as determined by the Customer from time to time. No special categories of personal data (GDPR art. 9) is processed.
 - f) **Categories of data subjects.** The data subjects may include the personnel and customers of the Customer and Customer's integration counterparty, as well as the personnel of their customers and suppliers.
- 2.3. **Compliance with Laws.** Each party will comply with all laws, rules and regulations applicable to it and binding on it in the performance of this Addendum. We have no reason to believe that the legislation applicable to us or our Sub-Processors prevents us or our sub-processors from fulfilling Customer's instructions or our obligations under this DPA. If we are notified by any of our Sub-Processors, or otherwise learn, of any change in legislation which is likely to have a substantial adverse effect on our ability or the ability of our Sub-Processors to preserving our data protection obligations, we will (a) promptly notify Customer of such change, (b) make and present to Customer as soon as possible a plan to overcome such adverse effects and (c) allow Customer to promptly terminate and be refunded the relevant Integration Subscriptions.

Additional instructions outside the scope of this Addendum (if any) require prior written agreement between Us and Customer, including agreement on any additional fees payable by Customer to Us for carrying out such instructions. Customer is entitled to terminate this Addendum and the Agreement if We decline to follow instructions requested by Customer that are outside the scope of, or changed from, those given or agreed to be given in this Addendum. Customer shall ensure that its instructions comply with all laws, rules and regulations applicable in relation to the Personal Data, and that the processing of Customer Data in accordance with Customer's instructions will not cause Us to be in breach of the Applicable Data Protection Law. If we will notice that the compliance with Customer's instructions would infringe the Applicable Data Protection Law, we will inform Customer, unless prohibited by applicable law.

4. CONFIDENTIALITY OF CUSTOMER DATA

We will not disclose Customer Data to any government or any other third party except as necessary to comply with the law or a valid and binding order of a law enforcement agency. If a law enforcement agency sends Us a demand for Customer Data, We will attempt to redirect the law enforcement agency to request that data directly from Customer. As part of this effort, We may provide Customer's basic contact information to the law enforcement agency. If we are compelled to disclose Customer Data to a law enforcement agency, then We will give Customer reasonable notice of the demand to allow Customer to seek a protective order or other appropriate remedy unless We are legally prohibited from doing so.

At least 45 days before We engage any new sub-processor to carry out specific processing activities on behalf of Customer, We will issue the Customer a Change Notice as provided in the Master Subscription Agreement. Customer hereby consents to Our use of sub-processors as described in this Section. Except as set forth in this Section, or as Customer may otherwise authorise, We will not permit any sub-processor to carry out specific processing activities on behalf of Customer.
- 7.2. **Sub-processor Obligations.** If We authorise any sub-processor as described in Section 7.1 above:

An unsuccessful Security Incident is one that results in no unauthorized access to Customer Data or to any of Our equipment or facilities storing Customer Data, and may include, without limitation, pings and other broadcast attacks on firewalls or edge servers, port scans, unsuccessful log-on attempts, denial of service attacks, packet sniffing (or other unauthorized access to traffic data that does not result in access beyond headers) or similar incidents; and

- 9.4. **Communication.** Notification(s) of Security Incidents, if any, will be delivered to one or more of Customer's administrators by any means We select, including via email. It is Customer's sole responsibility to ensure that Customer's administrators maintain accurate contact information on the management console of the Service at all time.

Such Reports will be made available to Customer subject to a mutually agreed upon non-disclosure agreement covering the Report (an “NDA”).
- 10.3. **Audit Reports.** At Customer’s written request, We will provide Customer with a confidential Report so that Customer can reasonably verify Our compliance with Our obligations under this Addendum. The Report will constitute Our Confidential Information under the confidentiality provisions of the Agreement or the NDA, as applicable.
- 10.4. **Customer’s Independent Determination.** Customer is responsible for reviewing the information made available by Us relating to data security and making an independent determination as to whether the Service meets Customer’s requirements and legal obligations as well as Customer’s obligations under this Addendum.

body, or (ii) Customer has not paid all amounts due under the Agreement. No later than the end of the 30-day period, Customer will close all ONEiO accounts. We will delete all Customer Data promptly after the Post-Termination Period, unless prohibited by law or an order of a governmental or regulatory body.

14. LIMITATIONS OF LIABILITY

The liability of each party under this Addendum shall be subject to the exclusions and limitations of liability set out in the Agreement. Customer agrees that any regulatory penalties incurred by Us in relation to the Personal Data that arise as a result of, or in connection with, Customer's failure to comply with its obligations under this Addendum or the Applicable Data Protection Law shall count towards and reduce Our liability under the Agreement as if it were liability to the Customer under the Agreement.

Annex 1

ONEiO SECURITY STANDARDS

Capitalised terms not otherwise defined in this document have the meanings assigned to them in the applicable ONEiO Master Subscription Agreement.

1. **Information Security Program.** We will maintain an information security program (including the adoption and enforcement of internal policies and procedures) designed (a) to satisfy the security objectives: availability, integrity and confidentiality, (b) to identify reasonably foreseeable and internal risks to security and unauthorised access to the Service, and (c) to minimise security risks, including through risk assessment and regular testing. We will designate one or more employees to coordinate and be accountable for the information security program. The information security program will include the following measures:
 1. **Data Security.** The Service will be electronically accessible to employees, contractors and any other person as necessary to provide the Service. We will maintain access controls and policies to manage what access is allowed to the Service. We will maintain corrective action and incident response plans to respond to potential security threats.
 2. **Physical Security**
 - a) **Physical Access Controls.** Facilities where physical components of the Service are housed ("Facilities") have physical barrier controls to prevent unauthorised entrance to the Facilities. Passage through the physical barriers at the Facilities requires either electronic access control validation (e.g., card access systems, etc.) or validation by human security personnel (e.g., contract or in-house security guard service, receptionist, etc.). Visitors are required to sign-in with designated personnel, must show appropriate identification, are assigned a visitor ID badge that must be worn while the visitor is at any of the Facilities, and are continually escorted by authorised employees or contractors while visiting the Facilities.
 - b) **Limited Employee and Contractor Access.** Our sub-contractors provide access to Facilities to those employees and contractors who have a legitimate business need for such access privileges. When an employee or contractor no longer has a business need for the access privileges assigned to him/her, the access privileges are promptly revoked.
 - c) **Physical Security Protections.** All access points /doors are maintained in a secured (locked) state. Access points to the Facilities are monitored by video surveillance cameras designed to record all individuals accessing the Facilities. Our sub-contractor also maintains electronic intrusion detection systems designed to detect unauthorised access to the Facilities, including monitoring points of vulnerability with door contacts, glass breakage devices, interior motion detection, or other devices designed to detect individuals attempting to gain access to the Facilities. All physical access to the Facilities by employees and contractors is logged and routinely audited.
 2. **Continued Evaluation.** We will conduct periodic reviews of the security of the Service and adequacy of its information security program as measured against industry security standards and its policies and procedures. We will continually evaluate the security of the Service to determine whether additional or different security measures are required to respond to new security risks or findings generated by the periodic reviews.

User Terms

Effective Date: March 4, 2019. Last updated Dec 1, 2022.

These User Terms of Service (the “**User Terms**”) govern your access and use of ONEiO integration service (the “**Service**”). Even though you are signing onto an existing account, these User Terms apply.

1. Legally Binding Terms

These User Terms are a legally binding contract between you and us. As part of these User Terms, you agree to comply with the most recent version of our Acceptable Use Policy, which is incorporated by reference into these User Terms. Reference to these User Terms includes reference to the Acceptable Use Policy. If you access or use the Service, or continue accessing or using the Service after being notified of a change to the User Terms, you confirm that you have read, understand and agree to be bound by the User Terms. “We”, “our” and “us” refer to ONEiO Cloud Corporation. You must be 18 years of age or older to use the Service.

Customer’s Choices and Instructions

2. Customer’s ONEiO subscription(s)

An organization or other third party that we refer to in these User Terms as “Customer” has usually invited you to access the Customer’s integration subscription. If you are accessing one of your employer’s subscriptions, Customer is your employer. If you are accessing an integration subscription created by an individual for her own account, she is our Customer and she is authorizing you to join her subscription. If you are accessing your own ONEiO integration subscription, then you are both ONEiO Customer and Authorized User.

3. What this means for You

Customer has separately agreed to ONEiO Terms of Service (the “**Contract**”) that permits Customer to create and configure integrations in the Service. Each invitee granted access to the Service, including you, is an “**Authorized User**”. The Contract contains our commitment to deliver the Service to Customer, who may then invite Authorized Users to access the Service. When an Authorized User (including you) creates or edits integration configurations (“**Configurations**”) or submits content to the Service, such as messages or files (“**Customer Data**”), you acknowledge and agree that such Configurations and Customer Data is owned by Customer.

4. Relationship Between You and Customer, No Warranties

AS BETWEEN US AND CUSTOMER YOU AGREE THAT IT IS SOLELY CUSTOMER’S RESPONSIBILITY TO (A) INFORM YOU OF ANY RELEVANT CUSTOMER POLICIES AND PRACTICES IN RELATION TO USE OF SERVICE; (B) OBTAIN ANY RIGHTS, PERMISSIONS OR CONSENTS FROM YOU THAT ARE NECESSARY FOR THE LAWFUL USE OF CUSTOMER DATA AND THE OPERATION OF THE SERVICE; (C) ENSURE THAT THE TRANSFER AND PROCESSING OF CUSTOMER DATA UNDER THE CONTRACT IS LAWFUL; AND (D) RESPOND TO AND RESOLVE ANY DISPUTE RELATING TO CUSTOMER DATA OR USE OF THE SERVICE. WE MAKE NO REPRESENTATIONS OR WARRANTIES OF ANY KIND, WHETHER EXPRESS OR IMPLIED TO

YOU RELATING TO THE SERVICE, WHICH IS PROVIDED TO YOU ON AN “AS IS” AND “AS AVAILABLE” BASIS.

5. Follow the Rules

To help ensure a safe and productive work environment, all Authorized Users must comply with our Acceptable Use Policy and remain vigilant in reporting inappropriate behavior or content to Customer and us.

6. Termination of User Account

These User Terms remain effective until Customer’s subscription expires or terminates, or your access to the Service has been terminated by Customer, you or us. You are entitled to terminate your account to the Service at any time or for any reason, or for no reason.

7. Limitation of Liability

If we believe that there is a violation of the Contract, User Terms, or any of our other policies, we may directly step in and take what we determine to be appropriate action (including disabling your account), if Customer does not take appropriate action or we believe there is a credible risk of harm to the Service, Authorized Users, or any third parties.

IN NO EVENT WILL WE HAVE ANY LIABILITY FOR ANY LOST PROFITS OR REVENUES OR FOR ANY INDIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL, COVER OR PUNITIVE DAMAGES HOWEVER CAUSED, WHETHER IN CONTRACT, TORT OR UNDER ANY OTHER THEORY OF LIABILITY, AND WHETHER OR NOT WE HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. OUR MAXIMUM AGGREGATE LIABILITY TO YOU FOR ANY BREACH OF THE USER TERMS IS ONE HUNDRED DOLLARS (\$100) IN THE AGGREGATE. THE FOREGOING DISCLAIMERS WILL NOT APPLY TO THE EXTENT PROHIBITED BY APPLICABLE LAW.

8. Application of Consumer Law

ONEiO is intended for use by businesses and organizations and not for consumer purposes. To the maximum extent permitted by law, you hereby acknowledge and agree that consumer laws do not apply. If, however, any consumer laws do apply and cannot be lawfully excluded, nothing in these User Terms will restrict, exclude or modify any statutory warranties, guarantees, rights or remedies you have, and our liability is limited (at our option) to the replacement, repair or resupply of the Service or the pro-rata refund to Customer of pre-paid fees covering the remainder of the term.

9. Survival

Sections 4, “Relationship Between You and Customer, No Warranties;” 7. “Limitation of Liability;” and 9. “Survival;” as well as all of the provisions under the general heading “General Provisions” will survive any termination or expiration of the User Terms.

General Provisions

10. Notices

Except as otherwise set forth herein, all notices under the User Terms will be by email, although we may choose to provide notice to Authorized Users through the Service. Notices to Us should be sent to feedback@oneio.cloud, except for legal notices, which must be sent to legal@oneio.cloud.

A notice will be deemed to have been duly given (a) the day after it is sent, in the case of a notice sent through email; and (b) the same day, in the case of a notice sent through the Service. Notices under the Contract will be delivered solely to Customer in accordance with the terms of the Contract.

11. Privacy Policy

Please review our Privacy Policy for more information on how we collect and use data relating to the use and performance of the Service.

12. Modifications

As our business evolves, we may change these User Terms. If we make a material change to the User Terms, we will provide you with reasonable notice prior to the change taking effect. You can review the most current version of the User Terms at any time by visiting this page, and by visiting the other pages that are referenced in these User Terms: Acceptable Use Policy and Privacy Policy. Any material revisions to these User Terms will become effective on the date set forth in our notice, and all other changes will become effective on the date we publish the change. If you use the Service after the effective date of any changes, that use will constitute your acceptance of the revised User Terms.

13. Waiver

No failure or delay by either party in exercising any right under the User Terms, will constitute a waiver of that right. No waiver under the User Terms will be effective unless made in writing and signed by an authorized representative of the party being deemed to have granted the waiver.

14. Severability

If any provision of the User Terms is held by a court of competent jurisdiction to be contrary to law, the provision will be modified by the court and interpreted so as best to accomplish the objectives of the original provision to the fullest extent permitted by law, and the remaining provisions of the User Terms will remain in effect.

15. Assignment

You may not assign any of your rights or delegate your obligations under these User Terms, whether by operation of law or otherwise, without the prior written consent of us (not to be unreasonably withheld). We may assign these User Terms in their entirety (including all terms and conditions incorporated herein by reference), without your consent, to a corporate affiliate or in connection with a merger, acquisition, corporate reorganization, or sale of all or substantially all of our assets.

16. Governing Law & Venue

These User Terms and any disputes arising out of or related hereto, will be governed exclusively by the same applicable governing law of the Contract, without regard to conflicts of laws rules or the United Nations Convention on the International Sale of Goods. The courts located in the applicable venue of the Contract will have exclusive jurisdiction to adjudicate any dispute arising out of or relating to the User Terms or its formation, interpretation or enforcement. Each party hereby consents and submits to the exclusive jurisdiction of such courts. In any action or proceeding to enforce rights under the User Terms, the prevailing party will be entitled to recover its reasonable costs and attorney's fees.

17. Entire Agreement

These User Terms, including any terms incorporated by reference into the User Terms, constitute the entire agreement between you and us and supersede all other agreements, proposals or representations concerning its subject matter. To the extent of any conflict or inconsistency between the provisions in these User Terms and any pages referenced in these User Terms, the terms of these User Terms will first prevail; provided, however, that if there is a conflict or inconsistency between the Contract and the User Terms, the terms of the Contract will first prevail, followed by the provisions in these User Terms, and then followed by the pages referenced in these User Terms (e.g., the Privacy Policy). Customer will be responsible for notifying Authorized Users of those conflicts or inconsistencies and until such time, the terms set forth herein will be binding.
